

# Prep Report.

I recently had a chance to catch up with Mayfield's Modern Foreign Language teachers to see what their views were on Prep since it was introduced.

They said that they much preferred Prep as it gave them the reassurance that all classes were up to speed with everything and on the same level throughout the year group.

Having said this, they also have opinions on how Prep could be improved. They feel that parents support plays a large part in this, as the more they support the better the pupil will do. They also feel that time management on the part of pupils could be greatly improved.

Apart from this they definitely prefer Prep over the homework system previously.
